# 03 About Vuch

## Where we operate

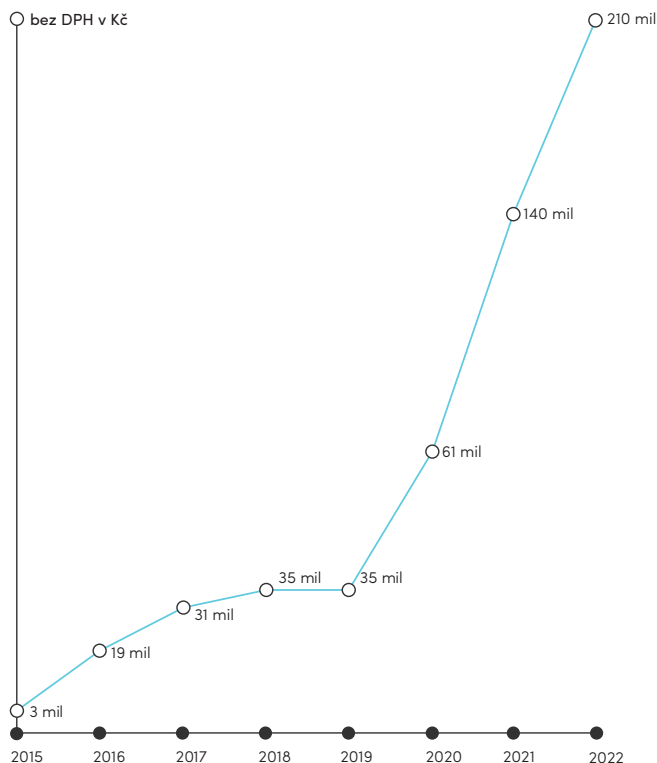

## We are growing

We have come a long way in the last two years. We have become the fastest growing Czech fashion brand. By joining with the eRockets investor group, we want to consolidate the continuous growth of the company and push the whole brand to the next level. And we are taking the appropriate steps to do so.

In June 2023, we are opening a new Vuchstore in Slovakia in the unique shopping complex OC Eurovea, located in the centre of Bratislava. With this big step, we will stabilize the Slovak market and be closer to our Slovak customers. This year we are also moving fully into a new segment. We believe that if this year is going to make a mark in the company's history, it will almost certainly be in the form of shoes.

We want to continue to show that we are an established, strong brand with a quality and affordable product. We're looking forward to the years to come and we'd love for you to be there too.

## 2022 in numbers

- 1 → The fastest growing fashion brand in the Czech Republic
- 319 431 Kč → Donated to non-profits
- 12 → Charity projects supported
- 261 % → Growth of eco collection
- 29 292 627 → Newsletters delivered
- 235 924 → Total number of orders
- 469 → Colour variants
- 210 454 000 Kč → Company turnover
- ∞ → Ideas and no limits

## Our plans?

In 2023, our primary goal is to maintain and increase the expansion of the past years and continue doing what we do best. But we will always seek the outer limits of our potential. With all the humility and determination worthy of our Chrudim party. We really have a lot of big challenges ahead of us this year.

We are still pursuing our dream to build Vuch into a significant company in the fashion industry, which will set the direction in Europe and perhaps even across the „big pond“. That is also why in May we opened a unique store in the very centre of Bratislava.

One of our main priorities is social responsibility. That is why this year we plan to focus more on sustainability and how we can take better care of Mother Earth. For instance, by using recycled materials and creating eco collections. We want to continue to support charity projects and organizations that need help. We are focusing on backpacks and shoes, so you can look forward to brand new models of women's footwear that will sweep the world with you.

# Stores

## Chrudim

Čáslavská 46, Chrudim 53701

Chrudim. This is where it all began! And that is why our first brick-and-mortar branch is located here. There you will find one of our stores, shipping, and even customer support. If you are a proud „Chrudimák“ in heart and soul, or if you are not far from us, stop by and we will be happy to help you with anything.

## Prague

Národní 38, Prague 11000

With our newly opened store in Prague, everything had to be picture perfect. And that's why you'll find it in the heart of Prague's streets. Would you like to come and see us? In the showroom, you can buy all of our range, which is available on the website, try on and test how it fits.

# Charity

We at VUCH try to lead by example. Not only in fashion trends, but also in the field of charity. From the very beginning we wanted to help those who were not so lucky in life. And we still hold on to this promise today, 7 years since the brand was founded.

That's why we work with a wide range of charities and associations, providing them with the resources they need most. We dedicated 28 days of intensive action to financially support the Ukrainian people and raised 125,801 CZK. Our damaged Vuchkas, which we use to make colourful Bobbies for sitting, have again delighted children in six kindergartens. And we are so happy to be able to help and give joy. Because that's what matters the most.

## Charity calendars

### 2022

- 12 unique artworks were created during the photo shoot from the workshop of the well-known painter Andrei Ehret
- The calendar features famous faces such as Alice Bendová, Maria Renčová and Martin Mikyska
- We donated 110 000 CZK to the The Sovereign Order of Malta

### 2023

- Four beautiful models, who are the permanent faces of Vuch, participated on the creation of the calendar.
- Jana Albrechtová, Vuchlady 2022, also took part in the photo shoot
- The proceeds will be donated to the non-profit organization Loono

## Charity Day

As you know, we want to help where the need is at the moment. That's why every year we organize a charity event, during which some money from every Vuchka goes to a good cause. This is VUCH Charity Day. A day where we give back.

“Hurá na výlet” (Hurrah for the Trip) is a non-profit organization run by a group of young enthusiasts. They take care of the elderly people of Chrudim, with whom they take various trips and organize educational or cultural events. Only thanks to you, we were able to donate CZK 34,750 to “Hurá na Výlet” in 2021.

In 2022, we were again able to raise CZK 28,400 for another charity project. We supported the non-profit organization “Nedoklubko”, which helps premature babies and especially their parents.

## Pink October with Loono

In 2022, we supported the non-profit organization Loono not only in its Pink October campaign. We also collaborated with them in our VuchLady competition, thanks to which we donated CZK 21,800 to a team of young doctors for charitable purposes. Together with you, we were then able to raise 13,390 CZK during the Pink October in Vuch, and together we helped to raise awareness of the prevention of serious diseases.

*„The fact that you have a desire to pass on joy, to be good, kind and nice is the most important value for me personally. I see this in the whole Vuch brand and I would like the future Vuchladies to profess this value as well.“*

15 Mini

We like to play around when designing our products and come up with unusual solutions to everyday fashion accessories. That's why our mini handbag collections are here! Sure, they're small, but they're awfully handy. They'll take you

on first dates, to parties with your girlfriends and even to the theatre. In fact, they'll make a chic handbag in a snap. Now it's up to you which mini beauty you choose for your wardrobe.

# 17 Crossbody

You're looking at the perfect combo of elegance and practicality. Put all your essentials in a crossbody bag, throw it over your shoulder and you're ready for your day, whether it's sunny or

when black is your colour of the hour. And like a true practical girl, you'll definitely make use of all its pockets too.

19 Large

Unfortunately, we're not at Hogwarts and don't have Hermione's magic bag that can fit a tent. But our large handbags aren't entirely far from it. In this category, you can choose your big beau-

ty, which has many advantages. You can carry it on your shoulder, in your hand or with the detachable crossbody strap. Smaller pockets for small items will also come in handy.

# 21 Fanny packs

You may remember when fanny packs made their first appearance on the scene. And maybe you were not born yet in the ,90s. Either way, now this accessory is making a big comeback and

we know why! Because it's a perfectly practical sidekick for just a few essentials. That's all you need anyway.

23

# Leather

Quality that will satisfy even the most demanding. There's nothing to fault the design while the workmanship and material are fantastic, and how does it feel to wear? You just have to experi-

ence it. You won't regret a second with a leather shoulder bag, and the only thing you'll be exposed to is the admiration of those around you.

The fashion industry is giving our mother Earth a hard time. At Vuch, we know this, and we certainly don't turn a blind eye to it. We are well aware that it is important to think (eco)logically, not only in production but also in the choice of

materials. And we admit that although we want to be leaders in design, materials and design, we are proud zeroes in one area! In the zero-waste program.

We know there is no Planet B and that every eco step counts. So, we've embarked on eco collections that we're proud of and you like, which makes us very happy. We've shone the spotlight on

materials and focused on recycled oxford, which is created from the shredded plastic bottles. Our wallets and handbags boast an interesting pedigree: mummy PET, daddy PET.

You are currently looking at the jewels and diamonds in our portfolio. The material and unique craftsmanship of our bestselling Cary and Carrie have become iconic, lending their look to other

products. The soft, textured faux leather, the elegant play with blind-printing, the unique shape and the distinctive fittings give the collection a stamp of luxury it affords.

76

# Cutie Dotty

Dot to dot sits well and best of all, they all sit on the Cutie Dotty collection, which takes its clean and elegant craftsmanship to an even higher level. The pattern of subtle cute dots on a mo-

nochrome background, which has become a bit of a signature of ours, runs through the Vuchka range. Fall in love with the cute dots too!

A collection inspired by purity and subtle elegance. Vuchkas that exemplify that there is beauty in simplicity and that less is sometimes more. The SimplyV collection is represented by

products in which fine lines, clean and smooth materials, precise workmanship and minimalist design play a major role. There is simply nothing extra here.

Durability, timelessness, practicality... A collection that was born out of interest in a single backpack. Mellora, one of the long-time Vuch best sellers, gave birth to an entire collection inspired by the connection between the city and nature.

Thanks to canvas, the alpha and omega among materials, the products won't peel or crack, are lightweight and easy to wash. Simply perfection for every (anti)technician.

# Mystery Garden

The flowers are not only beautiful and charming, but also have multiple beneficial effects. That's why we've dedicated this Mystery Garden limited edition to them. We teamed up with a talented designer and artist, Eva Chmelová, who created three beautiful and mysterious plant motives. Something that will reflect the charm

of our Czech nature and at the same time speak directly to you. And to give it all a purpose, we decided to present you the first ECO LIMITED collection, made from recycled materials. Visit our Mystery Garden and choose the flower that calls your name.

VUCH  
limited

Art and design have never been closer than on this our limited edition. The unmistakable combination of pop art from Josef Rataj's workshop on the popular Vuchkas, which can be summed

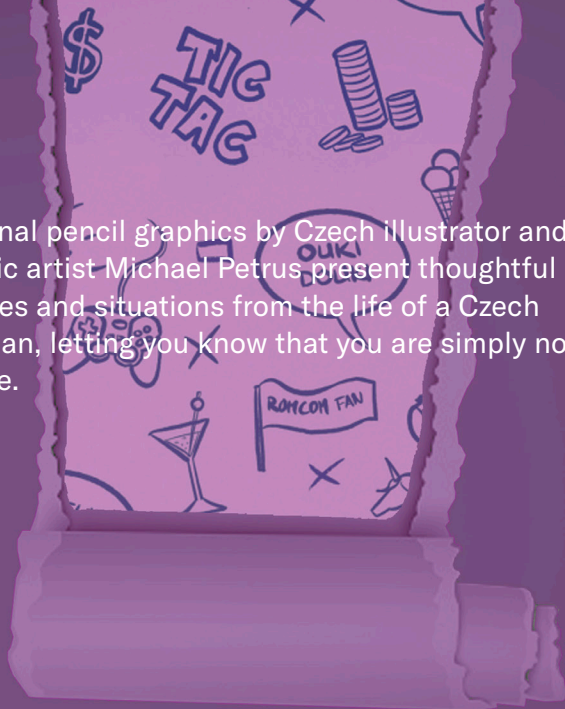

up thematically with a single slogan: „PEACE and LOVE“ is the artwork your wardrobe requires.

# 81 Emancipare

At Vuch, we look for the woman behind everything. And it is a woman and her typical mindset, her everyday woes, but also her strength and independence that inspires this limited edition of Emancipare purses and handbags. Three

original pencil graphics by Czech illustrator and comic artist Michael Petrus present thoughtful stories and situations from the life of a Czech woman, letting you know that you are simply not alone.

Combining the creative trio of Tomski & Polanski and Vuch to create an edition of backpacks and wallets with unique, playful designs. The limited-edition collection consists of three concepts

called Swimmers, Lovers and Dog walkers. Each of them represents a different story and a different form of love. Choose the story that reflects your life.

# 83 Rataj

Pop-art is not dead. And we'll subscribe to that. In collaboration with the painter and pioneer of Czech pop-art Josef Rataj, this limited edition of wallets and handbags reminiscent of a painter's

canvas was created. Stand out from the crowd with this design and choose your own must-have go-to piece from this collection.

VUCH  
limited

The limited-edition wallet collection in collaboration with rapper Sharlota represents rebellion of all kinds. Whether your rebellion is to cry at a

fairy-tale or to say something from the top of your lungs to someone. We all have a bit of rebel in us, and this limited-edition wallet line captures that.
